THE SAN FRANCISCO MURDER

Inquest in the DeYoung Case.

[SPECIAL DISPATCH TO THE OREGONIAN.]

SAN FRANCISCO April 27 —The inquest in the DeYoung case commenced this afternoon Inquiry was confined to circumstances immediately connected with the murder The testimony thus far agrees substantially with reports heretofore telegraphed

The "Times" on the San Francisco Assassination

NEW YORK April 26 —The *Times* says The assassination of DeYoung by Kalloch the son of the present mayor of San Francisco is the latest act in the tragical drama which has long excited the people of that city DeYoung as an editor was fond of what is known as sensational effects in journalism To be talked about was his highest aim in life He assailed the senior Kalloch's character (which is bad enough) from a journalistic point of view rather than from any sense of moral duty This course inevitably engendered a feud Kalloch the elder being assailed, retorted in kind and returned filth for filth The editor surprised at finding his own weapons used against him attempted to kill his antagonist His attack was as cowardly as that by which he subsequently lost his life Kalloch did not die DeYoung's pistol shot made him mayor of San Francisco The quarrel was renewed with vigor and Kalloch's son taking the law into his own hands deliberately assassinated DeYoung The murdered man was endowed with great natural gifts Morally he was a better man than either of the Kallochs He was basely killed but he was an evil and disturbing influence in the world His death will not be regretted as an universal calamity It is a calamity to any people that such men as the Kallochs should have cast their lot among them

A Bad Lot

NEW YORK, April 26 —The *Tribune* says San Francisco dispatches show the efforts DeYoung's friends are making to turn public sentiment strongly against the murderer It is now denied that DeYoung had any connection with the pamphlet about Kalloch and quite as plausible a story is told on this side as on the other An attempt will also be made evidently to implicate the elder Kalloch and show that the murder was the result of a conspiracy This is as improbable as it is impossible Whatever may be said of the elder Kalloch he is not a fool and must know the utter folly of murder simply regarding it as policy It is noticeable that the people of San Francisco do not seem to mourn very much either the man who has died or the man who ought to die and have the air of those who wish it had been a Kilkenny duel

An Ignorant Comment.

NEW YORK April 27 —The *Commercial Advertiser* comments on the DeYoung case as follows The case shows the lawless spirit in that city DeYoung shot the elder Kalloch no punishment was meted out to him, and he boasted that he expected none Why should not young Kalloch think if DeYoung could shoot his father with impunity that he might safely shoot the latter The judge who allowed DeYoung to run at large should share in the responsibility of DeYoung's murder

Some Facts about a Communistic Order in San Francisco

A man giving the name of John Thomas was arrested last night on a charge of drunkenness Upon being searched a copy of an oath of the Council of Thirteen was found on his person and to day he was recognized as one McCormick and proved to be a member of the council This council which is said to be at the head of the communist order in the city meet in secret Their organization is very secret even members of the order being ignorant of their deliberations. Their orders are promulgated by one who is called an "agent" The council claim that the agent is not a member of the council but he is known to be one of their number The oath found on McCormick is a very strong one It promises to support the edicts of the council and to respond immediately to a signal when called up, and binds the member to carry out all orders If he fails he is promised sure and swift punishment and if he is faithful and true he gets his reward It has been learned that the council is no part of the workingmen's organization It is also learned by the police that the organization which was strong a few months ago is now rapidly going to pieces Dissension and distrust of each other have done their work and within their ranks all is discord and chaos The ironclad oath of the council has not prevented several members from proving traitors to it and through them the police have been able to thwart and defeat many of their plans

Under date of April [illegible] the OREGONIAN's regular correspondent at Salem sends the following account of the funeral of the late Wm B Carter

Your correspondent was one of a party who went to Corvallis yesterday to attend the funeral exercises of W B Carter state printer the news of whose sudden death on Sunday as flashed along the wires creating a feeling of profound sorrow everywhere [illegible] a large party we arrived at Corvallis at [illegible] o'clock and found the [illegible] with preparations for paying his last sad respects to one who in life made its interests so completely his own As we observed all classes old and young rich and poor alike joined in honoring the memory of the deceased the query arose [illegible] W B Carter an enemy on earth? The printers representatives of the art preservative assembled at the [illegible] where badges were furnished them and in a body marched to the late residence of the deceased where they awaited the arrival of Corvallis lodge No 14 A F & A M under whose auspices the procedure [illegible] grand master of this jurisdiction the funeral took place Excelsior lodge I O O F the Corvallis fire department and friends of the family on foot The casket literally covered by floral tributes from loving friends was placed upon a bier and by personal friends who acted as pall bearers borne through the quiet streets to the city hall a few blocks distant.

This was filled in an incredible space of time by friends and acquaintances of the deceased, who flocked thither from all parts of Benton and Linn counties, desirous of thus showing their respect to the memory of the deceased The deep tones of the tolling bell was the only sound that broke the stillness of the hour as slowly the procession under the charge of Dr J B Lee as grand marshal filed slowly through the streets and thence into the building The stage was well filled with prominent citizens from various portions of the state the grand lodge officers clergy state officers etc while the main body of the hall was closely filled with a sorrowing public

The exercises at the hall were brief although impressive and were conducted by Revs Chapman Emory Simpson and York the sermon being delivered by the first mentioned gentleman At the conclusion of the exercises in the hall an opportunity was offered those present to view the remains hundreds of people availing themselves of the privilege The remains were then taken charge of by the masonic fraternity, and followed by a large concourse of carriages and friends on foot the mournful cortege took up its line of march for the sombre city of the dead where the mystic brotherhood consigned all that remained mortal of W B Carter to the grave and returned to their lodge room realizing only too well that another good man was gone

The state departments were closed yesterday and the flag hung at half mast over the capitol building in respect to the memory of W B Carter deceased and all the state officers and attaches attended the funeral at Corvallis

Your correspondent takes pleasure in announcing that it is Gov Thayer's intention to appoint some one state printer *ad interim* with a view that the family of W B Carter deceased will receive the benefits of the office until a new state printer is elected in June next, his excellency taking the same view of the case as that already expressed in the OREGONIAN in the case of J hns vs Whitney viz that the state printer to be elected in June next will serve for four years or during a full term

RAILROAD PROSPECTS

Movements from the Central Pacific Toward the Columbia River

From the Boise Statesman April [illegible]

Mr [illegible] that a party of [illegible] directors [illegible] Central Pacific and Battle Mountain and Austin railroad [illegible] this [illegible] parties to push the work of getting surveys from Battle Mountain towards and through Idaho and Eastern Oregon with the view of building a road through at [illegible] Columbia river as early as preparations can [illegible] for the work This shows the importance [illegible] trade in this [illegible] on the part of the Central Pacific to take time by the forelock and secure at least [illegible] vast benefits to follow from the [illegible] the rapidly developing northwest

The surveying party [illegible] as far as the mouth of Bruneau and were well pleased with the nature of the [illegible] crossing the Snake river at the last named point a level plain extends [illegible] upon which there would be little [illegible] necessary to be done Thence down [illegible] from this place the route would be [illegible] to the mouth of the Boise [illegible] fifty miles From the mouth of the Boise there will be a choice of two good routes one through the Willow creek country in Oregon towards the John Day country or down the Snake river valley to the mouth of Burnt river and thence by the way of Baker City and Grand Ronde Valley to the Blue Mountains. What effect this enterprise will have upon the scheme of the Union Pacific in extending its lines westward remains to be seen

It is already settled that the latter company will either build from Ogden in this direction or extend a branch of the Utah Northern in any event it may be considered certain that between the two companies we are on the eve of having rail road connection between the present transcontinental line and the Columbia river and that the road will pass through southern Idaho and through Boise City The parties interested in the Central Pacific proper, from San Francisco to Ogden as well as the city of San Francisco are beginning to see the need of a feeder road which will make it independent of the Union Pacific and enable it to draw off a portion of the trade if it cannot secure the whole trade of Idaho and eastern Oregon Meantime the Union Pacific feels the necessity of an independent through line westward and will struggle for the supremacy

EASTERN POLITICAL [illegible]

We are getting [illegible] bureau [illegible] bureau [illegible] side [illegible] works [illegible] interest [illegible]. The [illegible] bureau [illegible] stock [illegible] in this way [illegible] where [illegible] most good [illegible] has ceased for [illegible]. A correspondent who has looked into the workings of the several bureaus at Washington finds that however formidable they may appear when looked at from a distance they must be valued at a low figure when viewed from a near standpoint. But of course they are not intended for Washington. Their work is designed for what is there called the country. It is undoubtedly true the Blaine bureau is doing the most work. It attacks the opponents of Blaine vigorously and sends out cart loads of documents largely against Grant. It also sends out some against Sherman but none so far as known which are violently hostile to him. The bureaus all seem perfectly confident of the success of their respective chiefs. To make a note of their several conclusions therefore and accept what is said as true the conclusion would be that the nomination of Grant Sherman and Blaine by the Chicago convention is assured in advance.

Since the Blaine bureau is doing the most work and the most vigorous work and since it is making its most active efforts against Grant, it is evident that Blaine has decided to burn his bridges and to conduct the fight on his own muscle neither granting nor asking favors. As a result he is being vigorously attacked in turn by the Grant party. President Hayes it may be said is taking no part in the contest between the candidates though it may be assumed that he is friendly towards Sherman. The fact of his neutrality is shown by the action of the machinery which everywhere is mainly for Grant. The great bulk of those holding office were put there by Grant and they are for him with the expectation of holding on in the event of his election. Thus the Grant office-holders also have burnt their bridges. It is their purpose in case they find the nomination of Grant impossible to try to beat Blaine and Sherman with some dark horse taking their chances for the favors of new administration in case of success in the election.

The managers of the Grant bureau seem to be very much exercised over the alleged action of the Blaine bureau in sending out certain documents which are assumed to be very unfair to Grant and offensive to his friends. One of these documents is the pamphlet known as The Coming Crown. It is made up of extracts from a pretended court record of 1882, after Gen Grant by a revolution has established a monarchy and ascended the throne. The leading Grant men figure in attendance upon court under the varied titles of nobility. The pretended news from the country chiefly relates to the trials and punishments of the last of the republicans. Circulation of this pamphlet the Grant men affect to consider an inexcusable breach of propriety on the part of the Blaine bureau. They find fault particularly with an extract from the *Imperial Standard* of Oct. 1 1882. We give a portion of it:

> An official telegram published elsewhere in this issue brings intelligence of the trial and conviction by military commission of James G. Blaine of Maine and the sentence of banishment passed by the commission will in all probability be approved by his imperial majesty. We think the commission erred in its decision—not as to the guilt, but as to the punishment of the offender. The time has passed for measures of mercy. Justice demands something more. It demands stern retribution for such offenses as this man Blaine has committed and the punishment awarded should have been death. Let there be no trifling with traitors! When twenty so-called Union Leaguers were shot in Cincinnati it should have been a warning to rebels that the policy of the imperial government was not to regard sedition as child's play. Of what use is banishment if such men as John Sherman, James G Blaine and Rutherford B. Hayes can concoct their plots and plans against the safety of the empire on the Canadian side of the border and send their emissaries to spread disloyalty in every part of the country? Let the mob feel the power of the mailed hand! Give these traitorous republicans grape and canister as the gallant Sheridan did at Cleveland, when Euclid avenue was raked and the last vestiges of rebellion against the empire were swept away in Ohio.

There is more to the same effect. The strange thing about it is that such extravaganza should so move the ire of the Grant men. Sensible people don't think much of bureau literature come from what bureau it may and this specimen will not give them a better impression of it. It is only fair however to say that the Blaine bureau denies having sent out this ridiculous matter. If the managers of all these bureaus of both parties would shut up shop they wouldn't do the country any kind of injury, nor deprive it of anything that could contribute either to its intellectual profit or delectation.

RAILROADS AND EMPLOYES

The *American Law Review* for April published by Little, Brown & Co of Boston contains a very full report of a case recently decided by the supreme court of Missouri involving the question of the liability of railroads for injuries to employes. The case is of such interest to all classes of railroad men as well as the general public, that we are justified in giving an outline of it. The plaintiff in the case was employed as a brakeman by defendant and in attempting to uncouple some cars was knocked down and his foot was run over by the car next behind him inflicting an injury of so serious a nature as to render amputation of the leg above the knee necessary. He went between the cars while they were in motion removed the coupling pin then went back to take out the link and while walking between the said cars his right foot outside and his left foot inside of the rail his left foot was caught and held fast between the guard rail and that of the main track. It was thus the accident occurred, and the action was to recover damages for the injury. The particular negligence alleged in the petition was first that the guard-rail was unnecessary where it was placed and second, that the said guard rail was constructed of railroad iron known as the T rail instead of a different kind of rail which would have been as serviceable to defendant and less dangerous to its employes. The first ground was abandoned on the trial and plaintiff relying on the second introduced evidence tending to show that a guard rail of railroad iron known as T rail would have been as serviceable to the company and less dangerous to its servants that, owing to the form of the T rail his foot could not have been caught and held as it was in the T rail. It was finally decided by the court that railroad companies are bound to use appliances which are not defective [illegible] but as between them and their employes they are not bound to use such as are of the very best or most approved description. If they use such as are in general use that is all that can be required. This principle is applied to the use of T rail for a guard to railroad [illegible] appearing that although a guard [illegible] would be safer for employes and [illegible] the purpose of the company [illegible] yet the T rail was the one in [illegible] a brakeman who con[illegible] company [illegible] that the guard of a [illegible] is [illegible] of T rail cannot recover for injuries [illegible] consequence of his foot being [illegible] between the guard and the frog not [illegible] it may appear that if the guard had been made of a different rail it would have been less dangerous. The case is well [illegible] with extended notes and the citation of other authorities covering every [illegible] of the

[illegible] the master [illegible] when [illegible] agree [illegible] naturally incident [illegible] service. On the other hand [illegible] agrees with the servant [illegible] subject the latter [illegible] to risks [illegible] property [illegible] If [illegible] of the [illegible] express or implied the master subjects [illegible] beyond these [illegible] thereby [illegible] resulting damages. The decision is one which has an importance also beyond cases relating to railroads since its analogies bear upon the liability of employers in general for injuries to employes. The latter when they enter a particular service assume all risks naturally incident to it while the former must not subject the latter to risks through negligence in defect of machinery and the like which might reasonably be averted by proper care and better equipment.

Our telegraphic dispatches have recently been giving numerous reports of remarkable tornadoes in many parts of the country attended with great destruction of property and much loss of life. These storms have been distributed over a wide range of country including nearly every county in Missouri a large portion of Kansas the southern and western parts of Arkansas, southern and central Illinois and portions of Minnesota and Wisconsin. And now another like tempest is reported at Macon Georgia. By comparison the storm we had in Oregon last January seems insignificant. Is the frequency of these storms due to the perihelia of the planets on which so many prophecies have lately been based or is something else out of gear in the solar system? It is beyond question that there has been an increasing frequency of these atmospheric disturbances lately though whether on the whole they are more frequent now during a given period than during any similar period before scientific observations were so generally made may be doubted. Daily journalism now gives a full account and simultaneously in all parts of the country of these tornadoes and their consequences and hence they make more impression than formerly on the general mind.

There has arisen in the minds of observing people some doubt as to the sincerity of the Grant boomers and some further doubt as to whether they know what they are talking about. They have unanimously urged Grant's nomination on the ground of his stalwartism. But Gorham of California who has always been most strenuously opposed to letting up on the south now urges Grant's nomination because the time is ripe for reconciliation and Grant is to be the apostle. Gorham of course represents nothing as California has repudiated him and will vote for Blaine, but it seems worth while to note what he says as a contradiction of the course laid out for Grant by those who have been using the strong man' argument among whom is Gorham himself. Grant refused to help Ames of Mississippi with troops and also gave orders to withdraw military support from Packard before he retired. Minister White reported that Grant had indorsed Hayes policy to him. These are signs that General Grant does not intend if nominated, to again incur the charge of military despotism. If it is true that he intends to be the apostle of reconciliation his friends should make their appeals on that ground. There should be no double back action about his boom.

It has been noted that the main support which Mr George had in the convention from which he received the nomination came from those localities where he had been long and intimately known—that is from Linn Marion Benton Multnomah and Yamhill where the people have long had personal knowledge of his worth and rising abilities. Supposed based on such a fact is the highest possible compliment a candidate could receive. Where Mr George and Mr Whiteaker are both best known personally the former will get a vote which will be as complimentary as the support he received from the same localities in the convention which gave him his nomination.

Both Mr Blaine and Mr Hendricks appear to feel called on to say each speaking for himself, that by no means will they consent to be spoken of or thought of as candidates for the vice presidency. For Mr Blaine this disclaimer was unnecessary as no one has supposed that he would consent to be thus consigned to retirement and obscurity. But as to Mr Hendricks no one need be so sure. Four years ago he as positively declared that he never would consent to be a candidate for the vice-presidency yet consented very promptly when it was offered him.

The officials who now have control of state affairs have in many ways shown a disposition to treat with proper disapproval the plunderers connected with the last state administration. The executive has placed in public employment no thieves or experts and it is safe to say he will not.

Just now as it is but a few weeks till the Chicago convention we are hearing much about the republican party in the southern states. It is proper to get this work in now since after the convention we shall hear no more of the republican party in those states.

PRODUCE AND STOCK EXCHANGE—Present appearances indicate that the recent efforts which have been made to establish a produce and stock exchange in Portland are likely to result in failure. Last Friday [illegible] who hailed from San Francisco [illegible] very active and prominent part in organizing the Exchange stepped on board the [illegible] and crossed over to the Washington [illegible] Since that time [illegible] of the color of his hair [illegible] the inhabitants of this enterprising city. Before leaving Landeshu left a note saying that he was gone to Vancouver but would return the following day—Saturday. But as for [illegible] human affairs [illegible] failed to put in an appearance [illegible] of the many subscribing members [illegible] should shake from his restless [illegible] has not been very satisfactory [illegible] all that can be earned [illegible] needed in getting away [illegible] His has incurred some [illegible] rooms, and purchasing [illegible] No one of these [illegible] have been [illegible] members and the amounts [illegible] could have been easily paid. His sudden disappearance and continued absence [illegible] singular to say the least. It is quite certain he got away with no funds. Matters [illegible] very dubious aspect as regards the [illegible] of Portland produce and stock exchange of Portland. The sum total of the [illegible] fitting up of the rooms [illegible] $118 Twelve hundred dollars [illegible] is estimated will pay all claims against the exchange place the organization [illegible] put it in a condition to commence business since it seems certain that Landeshu has skipped [illegible] several of the members have proposed to go ahead with the enterprise [illegible] quite $1200 As yet only about [illegible] have been pledged for that purpose. What [illegible] effort to raise the needed funds will be [illegible] one of the conundrums of the hour. The [illegible] doubtless a final conclusion will be reached [illegible] the exchange will become an actuality or the organization abandoned.

FROM THE SKAGIT—Messrs C D Palmar [illegible] Blackwell, A bert Mahone John Jamestt [illegible] Courtney and two others arrived in this city last night direct from the Skagit mines and Mr Black well called at THE OREGONIAN office in order to "state the facts" about the diggings. He says that ten days are required to make the trip from Seattle to the mines—one day by steamboat, five by canoe and four over the trail—and that the total cost is about $15. The only way to get tools or supplies into the camp from the head of canoe navigation is by packing it on one's back over mountains all but impassable. A man by the greatest exertion and hardship can carry about sixty pounds and four days are required to make the trip. Flour beans and other actual necessaries can be bought in the mines but at an advance of 45 cents per pound above the prices at the head of canoe navigation. Mr Blackwell says that at this season it is literally impossible to do anything in the mines and that except ng on one or two claims, and that all the men who have gone in come out just as soon as their supplies are exhausted. He thinks the mines so situated that it will never be possible to work them except by methods impracticable except to men of capital. He wishes to warn poor miners that they can do nothing in the mines and to save them a hard and expensive trip.

GRADING—At present 75 men are engaged in grading and building bridges between Smithfield and Dallas on the Oregon Railway Company's road. About 60 men are employed in grading for the same company on the east side. The grading was commenced at Silvertown, and is progressing this way toward a junction with the Oregon and California railroad. Mr J B Montgomery the contractor, advertises in another column for experienced foremen to take charge of the work.

WILL ASSUME COMMAND.—Capt. Charles Thorn having resigned command of the *California* will take his departure this morning on the outgoing steamer accompanied by his family. Capt. James Carroll, formerly in command of the steamer *Great Republic*, and latterly of the *Alex. Duncan*, has been appointed to succeed Capt. Thorn as master of the *California*. Capt. Carroll will assume command at once of the steamer which is announced to sail for Sitka and way ports on Sunday May 2d.

DEATH OF T J CARTER.—Many of the old residents of Portland will remember Mr T J Carter, who, for a number of years lived in this city. His numerous friends will be pained to learn of his death, which occurred at Baker City on the 20th inst. Mr. Carter was stricken down with paralysis a short time since from the effects of which he soon died. For the past seven or eight years the deceased has resided at Baker City.

THE BENEFIT.—Considerable interest is manifested in the proposed benefit to John Maguire. His very many friends in this city are determined to work with a will and leave no thing undone to make it a brilliant success. Correspondence, programme, etc., will, it is expected be ready for publication in to-morrow's issue.

NEW DOCK.—The government snagboat *Corvallis* was engaged yesterday in tearing away the piling of the old woodyard back of the National Hotel preparatory to putting in a new dock for Thompson, De Hart & Co. Mr Joe. B Smith who has the contract for the new dock will commence work to-day with his pile driver.

"THE YANKEE TAR."—Mr M C Lowndsdale will sing Charles Bray's last song, entitled "The Yankee Tar," at Mrs D F Smith's reading which will come off at New Market Theater next Friday evening. This song is yet in manuscript and has not been sung in public.

LEG BROKEN.—A young man named Francis Brazil, while working at a logging camp at Rainier yesterday sustained a compound fracture of the right leg. He was brought up on the steamer and conveyed to St Vincent's hospital.

BRIEF NOTES

The city parks look beautiful.

Absolutely cloudless yesterday.

There is a lull in political matters.

Very little heard yet from base ball.

This is a good time to enjoy a sun bath.

Linen duster weather in the near future.

When are the county primaries to be held.

The *Elder* brings a large number of passengers.

The *Elder* will be due here to-morrow evening.

Portland has six more young M D's that yesterday.

Mount Hood never looked grander than yesterday.

Mrs D F Smith's benefit will come off Friday evening.

The *Oregon* will sail for this port next Saturday morning.

Mail will soon be coming through on short schedule.

The steamer *State of California* will sail hence this morning.

A very large quantity of delayed mail will arrive on the incoming steamer.

The air is burdened with the delicious fragrance of peach and plum blossoms.

The U S. district court met yesterday but adjourned without transacting any business.

THE OREGONIAN supplement issued yesterday contained *eight* columns of telegraphic matter.

Great numbers of swallows are to be seen skimming through the air—a certain indication that spring has come.

Report of State Fair Committee on Wm. Scheffler's Wines and Brandy

To the Board of Managers of the Oregon State Fair for the year 1879—DEAR SIRS: Your committee, appointed to report on the exhibit of wines and brandies, do respectfully report that they have thoroughly examined and tested the PORT, SHERRY and AMBER WINES put on exhibition by Mr Wm Scheffler of St Helena Napa county, Cal and that we have called in experts in aid of our judgment and would feel that we were doing Mr Scheffler great injustice did we simply report an exhibit of fine wines. The committee feel that they should go much further and say we find an exhibit of really very superior wines which we feel justified in recommending to the confidence of all who have use for wines. We have every reason to believe them pure and we can say for ourselves that they are delicious in their flavor.

We have also tested Mr Scheffler's SANITARY (VACUUM DISTILLED) GRAPE BRANDY and is pronounced by connoisseurs brought to our aid as being wonderfully smooth and inviting—and the fact that by the new process of distilling, adopted by Mr Scheffler the brandy is freed from the fusil oils, is a desideratum never before attained as we believe and should and doubtless will make Mr Scheffler the leading brandy manufacturer on this coast. We would recommend to all druggists a trial of this brandy and these wines. And your committee would recommend the award of the society's diploma for SUPERIOR BRANDY AND WINES.

What shall I do for a complexion is the one absorbing thought of many a lady who needs but that last touch to be a ravishing beauty. When Nature has failed to do her part comes in the aid of art and now that Madame Rachel's Enamel Bloom is freely offered there is no excuse for plainness. This providential invention is made of perfectly harmless ingredients fresh from the world of flowers and plants and has a most wholesome as well as a delightful effect upon the skin. No toilette table can afford to be without it and the orders pour in upon J A Child, Central Drug Store.

A GOOD THING.

German Syrup is the special prescription of Dr A Boschee a celebrated German Physician and is acknowledged to be one of the most fortunate discoveries in medicine. It quickly cures Coughs Colds and all Lung troubles of the severest nature removing, as it does the cause of the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine but has stood the test of years giving satisfaction in every case which its rapidly increasing sale every season confirms. Two million bottles sold annually. Beware of medicines of similar names lately introduced. Boschee's German Syrup was introduced in the United States in 1868 and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price 7 cents. Sample bottle 10 cents.

The Daily Oregonian.

WEDNESDAY MORNING, APRIL 28, 1880.

THE NORTHWEST.

Southern Oregon.

Bradley W. Delaney, of Lakeview died on the 16th inst.

The republicans of Lake will nominate a full county ticket on the 12th of May.

The circuit court of Lake county meets at Lakeview on the fourth Monday in June.

The democrats of Josephine will nominate legislative and county candidates on May 15th.

George and Thos. Briner, brothers, of Jackson county, have been committed to the insane asylum.

The fire engine fund held in trust by the board of trustees of Jacksonville, now amounts to $986 75.

Langell Brothers have lost 500 head of cattle out of a band of 1000, and they fear the worst is not over yet.

The republicans of Lake have nominated J. H. Hoffman, of Lakeview, and Charles S. Moore, of Linkville, for the legislature.

William Griffin has discovered a promising quartz ledge on Shaun creek, in Josephine county, the rock from which looks well.

The miners of Josephine county are busy, have plenty of water, and expect to do well this season, which will no doubt be a protracted one.

Jacksonville *Times*: Farmers have generally finished sowing small grain and now await an opportunity to put in the corn crop. The acreage is not as large as in former years, but will nevertheless prove ample enough.

It has been found that a good wagon road can be made from Goose lake to Reno at a cost of but a few thousand dollars; and as the interests of southern Oregon, and Lake county in particular, would be greatly benefited by such a road, it will probably be built. An effort to raise money by subscription is now in progress.

Jacksonville *Times*: Josephine county through her clerk, Charles Hughes, Esq., this week settled her indebtedness to Jackson county, amounting to $1750. This has been due for a number of years, and was incurred in the trial of the Briggs cases, which were disposed of here under a change of venue. Jackson county paid off the expenses in her own scrip, and is reimbursed in full, interest included.

It is proposed to spend most of the $10,000 appropriated last winter by congress for repairing the military road from Scottsburg to Camp Stewart, on the Grave creek and Cow creek hills. A force of about twenty men are now employed on the latter, and operations are being pushed with all possible speed. New road will be built in many places in order to reduce the grade and secure a better road bed. It is proposed to reduce the grade one-half, so that it will be one foot in twelve instead of one in six as at present. As the citizens of Douglas county propose improving the road south of Roseburg during the season, it is quite likely that the trip to the Umpqua will lose half its terrors.

Lakeview *Herald*: From Messrs. Miller & Miller, butchers of this place, we learn that the loss of stock in upper valleys and on the desert has been grossly exaggerated. These gentlemen have just returned from a business visit to the desert, and report that the herds are in first rate condition. Five per cent. will certainly cover the entire loss up to the present time. Most of the stock that have perished are found in the marshes, and the conclusion must be that they were caught too distant from good footing by the first thaw, and were unable again to gain the foothills. The weather in the upper valleys is moderately warm and spring work of every kind is in full blast. The range is improving rapidly and no more loss from the storm is apprehended.

Eastern Oregon.

A match game of base ball will be played between Pendleton and Heppner base ball clubs for $100.

The Bialock Farming Company have already 500 acres plowed for wheat on the ranch and 200 on the river bank sowed to barley, which is coming up nicely. The ranch, consisting of 25,000 acres, all of which is good land, will, by next week, be surrounded by a double ditch fence; one hundred men are steadily employed. Beside this work they have constructed a good road from Blalock's landing to the ranch, at a cost of $1000. It is the intention of the company to alternate 12,000 acres each year, thus leaving one-half for summer fallow. Besides this Dr. Blalock will seed 3000 acres at the old "big ranch," and next week he will have 25 gang plows running steadily.

Citizens of Umatilla county, favoring a division of that county, met at Pendleton last week and nominated the following ticket: Sheriff, F. M. Crockett; clerk, J. B. Gerking; representatives, J. C. Franklin and Dr. Williamson; judge, E. E. Eastland; commissioners, J. A. Hungate and Wm. Penland; treasurer, Thos. Robbins; assessor, B. F. King; surveyor, T. C. Bramel; school superintendent, W. P. Palmer; coroner, Dr. Linsey. The following resolution, which was adopted by unanimous vote, represents the spirit and purpose of the convention: That we favor the formation of a new county out of the northeastern portion of Umatilla county; said new county to embrace, as nearly as may be, one-third of the area of Umatilla county as it now is; and that the boundaries of said new county be such as to make it in as compact a form as it may be.

Eastern Washington.

Two soldiers robbed a drunken man at Walla Walla a few days ago.

Albert Bolenbaugh and Edward Kyger got into a row at Harney last week, the latter stabbing the former several times.

The Umatilla grand jury, in session at Pendleton last week, failed to find an indictment against J. H. Turner for the killing of Strobe.

A gold nugget was taken from the claim of Smyer & Co., at Susanville, Grant county, recently, weighing $260. A $50 25 nugget was also taken from Sam Hillis' claim at Marysville.

A special train bearing the Villard party made the trip from Wallula to Walla Walla in 59 minutes, the fastest time ever made over the road. Considering the many curves and heavy grades the run was a good one.

Walla Walla *Statesman*: The high winds that have prevailed so much this spring has been rough on most kinds of fencing. It seems that all kinds have suffered, more or less, if we except the sod fences. Some of our granger friends have had to build anew some portions of their fencing three different times. The winds have been unusually high this season.

Letter from VanSycle canyon, Umatilla county: During the past twenty days there has been a vast change for the better in this section of country. Fall sown wheat which looked poorly three weeks ago is now looking very favorable for a good yield, while spring sown grain is all that could be wished for. From the present outlook there will be an immense acreage next year in this vicinity. Sheep men in this vicinity are jubilant. They have raised from 90 to 100 per cent, and expect to realize a good price for wool. Horse breeders feel very uneasy—barbed wire fences the cause.

Western Oregon.

Astoria has a cornet band—unhappy Astoria.

The Astoria board of health has adopted measures guarding against diphtheria and other diseases.

A gentleman at Eugene has received several carp, a particularly valuable fish and will attempt to stock the waters of Oregon with that species.

Astorian: A fisherman has been held to bail to appear before the circuit court for violating the law with respect to the time of fishing. The law is plain that no fishing can be done between the hours of 6 o'clock P. M. Saturdays and 6 P. M. Sundays.

For the Supreme Bench.

The Salem *Statesman* contains the following just notice of the candidates named by the republican convention for the supreme bench:

E. B. Watson is one of the leading lawyers of Jackson county, at one time holding the office of probate judge there. He was admitted to the bar in 1868, and since that time has been in active practice. He is spoken of as a man of excellent ability and one eminently fitted for the duties of the supreme bench. It is not necessary to introduce Major Lord, now state senator from this county, to the people of Salem or to the members of the bar of this state. He has stood in the front rank for years as a lawyer of profound ability and a man of ripe scholarship. His services as a soldier in the ranks of the union army during the rebellion were not the only credentials with which he went before the convention. He was nominated because of his eminent fitness for the position, and it speaks well for his character and ability that by those with whom he is the most intimate he is held in the highest estimation and given the most cordial support. John B. Waldo is a pioneer Oregonian, well known to the people of Marion county where his earlier years were spent. He, like Mr. George, was formerly a student of the Willamette University, graduating in the class of 1863. For the past 15 years he has been practicing law in Portland, Oregon. So far as we can recall he has never held official position, not from any want of fitness but from a natural aversion to political strife. He is a quiet, unobtrusive, scholarly gentleman, and perhaps a harder student than any other member of his profession in the state. His peculiar temperament, his studious habits, his freedom from all political entanglements, his quick perception and his keen analytic mind all combine to commend the fitness of his nomination.

FINANCE AND COMMERCE.

LONDON, April 27.—Consols, 99 1 16 money; 99 account; 4½s P. M. 99 1-16.

Silver, English standard, per fine ounce, 52 5-8d.

LONDON, April 27.—Silver, 51 15-16; consols, 99 7-16; fours, 109¼; new 5s, 104¾; Erie, 34¼.

The local markets show a fair volume of trade with no special fluctuation in prices. Breadstuffs and grain are quiet and nominally unchanged. Wool seems steady, though there is a disposition on the part of buyers to watch other markets very closely, and some are operating very cautiously, taking only such lots as are on the spot or for immediate delivery. Buyers to hold are not too cropping.

EASTERN FREIGHTS AND MARKETS.

[SPECIAL DISPATCH TO THE OREGONIAN.]

NEW YORK, April 26.—The freight market is still very quiet and there is no freight on outside market at all. Rates are easier and lower than on last vessel. The Oracle and Triumphant have cleared and former sailed. The Loretta Fish has also sailed from Baltimore with a full cargo of coal.

Market inactive; breadstuffs dull, unsettled, lower with no export demand.

Provisions higher, steady.

Rio Coffee quiet, quarter firmer.

Hides quiet, last sales California was for 25c, 30 days.

Turpentine firmer, 38½@39½c.

Hops dull, no further movement in California.

The volume of trade in leading departments shows gradual shrinkage and a weak tone is quite perceptible in most markets. In breadstuffs a pretty large business has been done and wheat has been heavily dealt in, chiefly speculation though a fair amount has been done for export. At close there was less doing owing to a sharp advance in consequence of a break in the Erie canal and probable delay in receipts.

Barley dull and nominal; sales 5000 bushels California bay brewing 80c.

Provisions—Nominal at some advance, which checks trade.

Coffee—Rio is quoted ¼ higher; all other grades ¼ lower.

Teas—Offered freely, but market very dull.

In all other articles there is but a hand to mouth business doing, and where prices are not lower they are weak and nominal.

Wool—Dull, easy; sales 350 bales and 20,000 lbs fall Colorado, part, 23½@24; 70,000 pounds new spring 36.

Hops—Been very quiet but lots could be bought at commissions. During the past week there has been quite a lively trade in 1879 Californias, with sales of 300 bales at 30@33½.

The English Grain Market.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

LONDON, April 27.—Breadstuffs heavy; wheat, 9s @10s 3d per cental average California white, 10s @10s 6d; California club 9s 3d@10s 2d red western spring, and 9s 10d@10s 7d red winter. Receipts of wheat past 3 days, 319,000 centals, including 304,000 American.

Butter—The market is better supplied and working easily, we quote same as before.

Catarrhal

POISON

Wei De Meyer's Treatise on Catarrh, explains the following important facts:

1. That Catarrhal Colds become a poisonous infection, at first local and finally constitutional.

2. That, being constitutional, the infection is beyond the reach of mere local remedies.

3. That impurities in the nostrils are necessarily swallowed into the stomach and inhaled into the lungs, thus poisoning the Digestive, Respiratory and Genito-urinary organs.

4. That Catarrhal virus follows the mucous membrane and causes Deafness, Dyspepsia, Chronic Diarrhœa, Bronchitis, Leucorrhea, and Consumption.

5. That Smokes, Douches, Inhalations and Insoluble Snuffs cannot possibly remove infectious inflammation from the organs named.

6. That an antidote for Catarrh must possess an inoculative affinity for, and the quality of being absorbed by, the purulent mucous wherever located.

Based upon these plain theories, Dr. Wei De Meyer's Catarrh Cure has proved to be infallible. It not only relieves, it cures Catarrh at any stage. Home testimony:

Cured! Cured! Cured! Cured!

W. D. Woods, 487 Broadway, N. Y., Cured of Chronic Catarrh.

F. J. Haslett, 853 Broadway, N. Y., 1y's Catarrh.

G. I. Bacon, 413 Broadway, N. Y., 10y's Catarrh.

S. Benedict, Jr., Jeweler, 697 Broadway, N. Y., (lady friend), cured of Chronic Hay Fever.

Mrs. Emma C. Howes, 39 W. Washington Square, N. Y., cured of 30 years Chronic Catarrh.

Rev. Geo. A. Rees, 162 Jay St., Brooklyn. "It restored me to my ministerial labors."

Rev. Chas. J. Jones, New Brighton, S. I. "Worth ten times the cost."

Rev. Alex. Fuess, Cairo, N. Y. "It has worked wonders in six cases in my parish."

L. P. Newman, 395 Fulton St., Brooklyn, cured of 4 years Chronic Catarrh.

Mrs. J. Swartz, Jr., 260 Warren St., Jersey City, cured of 18 years Chronic Catarrh.

&c. &c. &c. &c. &c.

A real cure for this terrible malady is the most important discovery for the relief of human suffering, since vaccination. Wei De Meyer's Catarrh Cure is sold by all Druggists, or delivered by D. B. Dewey & Co., 46 Dey St., N. Y. for $1.50 a package. To Clubs, six packages for $7.50. Dr. Wei De Meyer's Treatise, with full explanations and overwhelming proofs, is Post-paid and sent free to anybody.

Seminal Weakness

Seminal Emissions, in consequence of self abuse. This solitary vice is practised by the youth of both sexes to an almost unlimited extent, producing the following train of symptoms, unless combated by scientific measures, viz: Sallow countenance, spots before the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, a diffidence in forming new acquaintances, disposition to shun society, loss of memory, hectic flushes, pimples and eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. Persons may be CURED AT HOME, by addressing Dr. Gibbon, stating case, symptoms, length of time the disease has continued. Medicines forwarded free from curiosity, with full directions. By enclosing Ten Dollars in registered letter, or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the world. Address DR. J. F. GIBBON, Box 1,957, San Francisco. Say you read this in THE OREGONIAN.

YOUNG MEN

WHO MAY BE SUFFERING FROM THE effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit $500 for every case of Seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE AGED MEN.

There are many at the age of thirty to sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation free. Thorough examination and advice, $5. Call or address

Bradley W Delane of Lakeview died on the 16th inst

The republicans of Lake will nominate a full county ticket on the 12th of May

The circuit court of Lake county meets at Lakeview on the fourth Monday in June

The democrats of Josephine will nominate legislative and county candidates on May 19th

George and Thos Briner brothers of Jackson county have been committed to the insane asylum

The fire engine fund [illegible] the board of trustees of Jacksonville now amounts to $946

Langell Brothers have lost 99 head of cattle out of a band of 1000 and they fear the worst is not over yet

The republicans of Lake have nominated J H Hoffman of Lakeview and Charles S Moore of Linkville for the legislature

William Griffin has discovered a promising quartz ledge on Shann creek in Josephine county the rock from which looks well

The miners of Josephine county are busy have plenty of water and expect to do well this season, which will no doubt be a protracted one

Jacksonville *Times* Farmers have generally finished sowing small grain and now await an opportunity to put in the corn crop The acreage is not as large as in former years but will nevertheless prove ample enough

It has been found that a good wagon road can be made from Goose lake to Reno at a cost of but a few thousand dollars and as the interests of southern Oregon and Lake county in particular would be greatly benefited by such a road it will probably be built An effort to raise money by subscription is now in progress

Jacksonville *Times* Josephine county through her clerk Charles Hughes, Esq this week settled her indebtedness to Jackson county, amounting to $1750 This has been due for a number of years and was incurred in the trial of the Briggs cases, which were disposed of here under a change of venue Jackson county paid off the expenses in her own scrip and is reimbursed in full interest included

It is proposed to spend most of the $10 000 appropriated last winter by congress for repairing the military road from Scottsburg to Camp Stewart, on the Grave creek and Cow creek hills A force of about twenty men are now employed on the latter, and operations are being pushed with all possible speed New road will be built in many places in order to reduce the grade and secure a better road bed It is proposed to reduce the grade one-half so that it will be one foot in twelve instead of one in six as at present As the citizens of Douglas county propose improving the road south of Roseburg during the season it is quite likely that the trip to the Umpqua will lose half its terrors

Lakeview *Herald* From Mesars Miller & Miller butchers of this place we learn that the loss of stock in upper valleys and on the desert has been grossly exaggerated. These gentlemen have just returned from a business visit to the desert, and report that the herds are in first rate condition Five per cent. will certainly cover the entire loss up to the present time Most of the stock that have perished are found in the marshes, and the conclusion must be that they were caught too distant from good footing by the first thaw and were unable again to gain the foothills The weather in the upper valleys is moderately warm and spring work of every kind is in full blast. The range is improving rapidly and no more loss from the storm is apprehended

Eastern Oregon.

A match game of base ball will be played between Pendleton and Heppner base ball clubs for $100.

The Blalock Farming Company have already 500 acres plowed for wheat on the ranch and 200 on the river bank sowed to barley, which is coming up nicely. The ranch, consisting of 25,000 acres, all of which is good land, will, by next week. be surrounded by a double ditch fence; one hundred men are steadily employed. Beside this work they have constructed a good road from Blalock's landing to the ranch, at a cost of $1000 It is the intention of the company to alternate 12,000 acres each year, thus leaving one-half for summer fallow. Besides this Dr Blalock will seed 3000 acres at the old "big ranch," and next week he will have 25 gang plows running steadily.

Citizens of Umatilla county, favoring a division of that county, met at Pendleton last week and nominated the following ticket Sheriff, F. M. Crockett, clerk, J. B Gerking representatives, J O. Franklin and Dr Williamson, judge, R E Eastland, commissioners, J A. Hungate and Wm Penland treasurer, Thos. Robbins; assessor, B F. King, surveyor, T. C. Bramel, school superintendent, W. P Palmer, coroner, Dr. Linsey The following resolution, which was adopted by unanimous vote represents the spirit and purpose of the convention That we favor the formation of a new county out of the northeastern portion of Umatilla county, said new county to embrace, as nearly as may be, one-third of the area of Umatilla county as it now is, and that the boundaries of said new county be such as to make it in as compact a form as it may be

Eastern Washington.

Two soldiers robbed a drunken man at Walla Walla a few days ago.

Albert Bolenbaugh and Edward Kyger got into a row at Harney last week, the latter stabbing the former several times.

The Umatilla grand jury, in session at Pendleton last week, failed to find an indictment against J. H. Turner for the killing of Strobe

A gold nugget was taken from the claim of Smyet & Co., at Susanville, Grant county, recently, weighing $260 A $50 25 nugget was also taken from Sam Hillis' claim at Marysville.

A special train bearing the Villard party made the trip from Wallula to Walla Walla in 59 minutes, the fastest time ever made over the road Considering the many curves and heavy grades the run was a good one.

Walla Walla *Statesman* The high winds that have prevailed so much this spring has been rough on most kinds of fencing It seems that all kinds have suffered, more or less, if we except the sod fences. Some of our granger friends have had to build anew some portions of their fencing three different times. The winds have been unusually high this season

Letter from VanSycle canyon, Umatilla county During the past twenty days there has been a vast change for the better in this section of country Fall sown wheat which looked poorly three weeks ago is now looking very favorable for a good yield, while spring sown grain is all that could be wished for From the present outlook there will be an immense acreage next year in this vicinity Sheep men in this vicinity are jubilant They have raised from 90 to 100 per cent and expect to realize a good price for wool Horse breeders feel very uneasy—barbed wire fences the cause.

Astoria has a corn [illegible] band—unhappy Astoria

The Astoria board of health has adopted measures guarding against diphtheria and other diseases.

A gentleman at Eugene has received several carp, a particularly valuable fish and will attempt to stock the waters of Oregon with that species

Astorian A fisherman has been held to bail to appear before the circuit court for violating the law with respect to the time of fishing. The law is plain that no fishing can be done between the hours of 6 o clock P M Saturdays and 6 P M Sundays

For the Supreme Bench

The Salem *Statesman* contains the following just notice of the candidates named by the republican convention for the supreme bench

E. B. Watson is one of the leading lawyers of Jackson county at one time holding the office of probate judge there. He was admitted to the bar in 1858 and since that time has been in active practice He is spoken of as a man of excellent ability and one eminently fitted for the duties of the supreme bench. It is not necessary to introduce Major Lord now state senator from this county to the people of Salem or to the members of the bar of this state He has stood in the front rank for years as a lawyer of profound ability and a man of ripe scholarship His services as a soldier in the ranks of the union army during the rebellion were not the only credentials with which he went before the convention He was nominated because of his eminent fitness for the position and it speaks well for his character and ability that by those with whom he is the most intimate he is held in the highest estimation and given the most cordial support John B. Waldo is a pioneer of Oregon and well known to the people of Marion county where his earlier years were spent He like Mr George was formerly a student of Willamette University graduating in the class of 1863. For the past 15 years he has been practicing law in Portland Oregon. So far as we can recall he has never held official position not from any want of fitness but from a natural aversion to political strife. He is a quiet, unobtrusive scholarly gentleman, and perhaps a harder student than any other member of his profession in the state His peculiar temperament, his studious habits, his freedom from all political entanglements his quick perception and his keen analytical mind all combine to commend the fitness of his nomination

Catarrhal

POISON

Wei De Meyer's Treatise on Catarrh explains the following important

1 That Catarrhal Colds become a poisonous infection at first local until gradually constitutional

2 That b[illegible] into [illegible] is beyond the reach of mere local remedies

3 That impurities in the [illegible] are necessarily swallowed into the stomach and inhaled into the lungs thus poisoning [illegible] Respiratory [illegible]

4 That Catarrhal virus follows the mucous membrane [illegible] Deafness [illegible] Bronchitis, Leucorrhœa and Consumption

5 That Smokes, Douches, Inhalers and Insufflators cannot possibly remove infections [illegible]

6 That an antidote for Catarrh must possess an inoculative affinity for [illegible] quality of being absorbed by the [illegible] mucous wherever located.

Based upon those plain theories Dr. Wei De Meyer's Catarrh Cure has proved to be infallible It not only relieves it cures Catarrh at any stage Home testimony
